The CSM REU tackles three important scientific and engineering problems in the renewable energy field.

- **Photovoltaics**
- **Fuel Cells**
- **Energy Storage**

Application deadline: 3/1/09
Website: [http://remrsec.mines.edu](http://remrsec.mines.edu)

REU Details:
Participating students will receive a $4,500 stipend, on-campus housing (if needed), meal plan, health insurance, and related travel expenses for those living more than 40 miles from campus.

Please see inside of brochure for program goals, application, and more info.

Sponsored by the Renewable Energy Materials Research Science and Engineering Center (REMRSEC)
**Program Goals**

The goals of this particular REU are to provide students an interactive, encouraging, and multi-level research experience that can be drawn upon when making decisions about advanced education and future careers in the renewable energy field. In addition, the CSM faculty hope to nurture a greater sensitivity of CSM students’ place and role in the world in which they live.

**Student Selection**

Selections are based on a student’s academic standing, faculty recommendations, and personal statements of interest on the enclosed application. Due to the competitive nature of the screening process, application materials will be carefully reviewed and ranked. Students from underrepresented groups and institutions are strongly encouraged to apply. **To be considered, all complete application packages must be received by the REMRSEC by March 1, 2009.**
